

## **Certificate 4 Nurse Casual and Part-time position**

WE ARE LOOKING FOR A NURSE TO JOIN OUR EXPANDING TEAM!

Gawler Animal Hospital is continuing to experience rapid growth, which means that we need an experienced and qualified Nurse to fill a casual role and part-time role. This is a very rare opportunity to work for a privately run Veterinary Hospital with a dynamic workplace culture, so we are looking for someone exceptional!

### WHO ARE WE?

We are a premier Veterinary Hospital in the northern suburbs of South Australia, who see an array of clients and patients. Each person who walks through the door is like family, so much so that we are on a first name basis with many of our clients.

We have a varied caseload, so to compliment this we have a team who possess an arsenal of different strengths and interests. Out of work catch-ups and activities are the norm, and when clients see us interacting they often comment on what an awesome place it must be to work.

As a busy hospital, communication and mental health are extremely important to us. We have weekly staff and team meetings, and run a Social Club to organise staff events and fun monthly activities. Our Health and Wellbeing team form part of our EAP, where all of our staff have access to a counsellor and avenues to seek professional care when they feel they need it. Continuing education is valued highly, we love to learn.

### WHO ARE YOU?

Our practice values are Autonomy, Collaboration, Vulnerability, Family, and Accountability. We are looking for a team member who can live and breathe these values too.

You are the kind of person who will hit the ground running, multi-tasking like a pro. Stamina throughout your shift is a must, as is being able to perform well under pressure. Our line of work requires you to be empathetic, compassionate, passionate, and not afraid to get stuck in - Running to where the work is! This means being a self-starter who finds jobs to do and can see how we can do things better.

You will be resilient and able to adapt to varying situations (as no two days are the same), and be a natural problem solver. Your relationship building talents will be vital to your success in the role, as will your ability to be a strong communicator.

In terms of fitting in with the team, you will need a cracking sense of humour and have a positive outlook on life. Our team are all flexible, mature and reliable, and you will be too.

Due to the nature of the role on offer, we are looking for someone who is fully flexible, can hit the ground running and is interested in high level nursing. If you are feeling stagnant in your current role and wanting more – we are the place for you!

### WHAT IS THE ROLE?

This is a dynamic Nursing role, where your day to day activities will include:

- Perform high level nursing duties within our Hospital, including all facets of patient care, anaesthetic preparation and monitoring, dentistry, imaging, and working with emergency and critical care cases.
- Use of our Hospital workflow software, portable x-ray machine, dental x-ray unit, full suite of IDEXX in-house diagnostics, ezyVet Practice Management Software and lots of other gizmos and gadgets relative to an Accredited Hospital
- Work with our consulting team as a Consulting Nurse or Team Consulting Nurse in a client facing role, contributing via safe patient handling, education for clients, notation of the consult, and set up and pack down of the consulting area.
- Contributing to the constant improvement of our policies and procedures, to ensure we are operating efficiently and effectively.
- Contributing to the effective communication between all individuals and areas of the hospital, supporting a positive and dynamic workplace culture
- Most of all, advocating for your patients care and comfort during their time within our Hospital

The job on offer is for casual or part-time work, which will include working a variety of shifts between 7.30am and 8pm Monday to Friday, and some weekend work where required.

Please forward all applications to Anne Crouch, [office@gawlervets.com.au](mailto:office@gawlervets.com.au). Applications close 6pm on Friday 23 February.
